UNIVERSITY CAMPUS BOHUNICE  
KAMENICE 753/5, 625 00 BRNO

---

With great pleasure we invite you to a lecture called “**Biosensors – where are the limits?**” given for professional public by **doc. RNDr. Petr Skládal, CSc.**, the director of the Department of Biochemistry, the head of Biosensors research group at the Department of Biochemistry, and the senior group leader of Nanobiotechnology at CEITEC.

- The lecture is given as a part of the professorship appointment procedure in the field of **Biochemistry**. Your attendance and your questions are very welcomed!
- The lecture will take place on **Thursday 24<sup>th</sup> of February** at **12 AM** in the seminar room **B11/205** in accordance with the latest active measures regarding Covid-19.
- The lecture will be also streamed online via the platform **MS Teams**. Please contact doc. Martin Mandl beforehand to gain access to the meeting ([mandl@chemi.muni.cz](mailto:mandl@chemi.muni.cz)).

**We are looking forward to seeing you there!**
